Each person nominated for the NEFL Hall of Fame will have their application presented to the Hall Of Fame Committee. That application will be reviewed by the committee and parliamentary procedure will be followed where a member must make a motion to vote on each player. Another member must second that motion before taking a vote on each person. If a player does not get a motion or a second to the motion, no vote will take place. A player may be voted on for 3 years before he is no longer eligible. As long as a player gets voted on, he will be automatically placed into the pool for consideration the following year until he exhausts his 3 years of eligibility. If a player does not get a second motion to get voted on, he is not eligible to be voted on the following year.
